

GEN. EVANS ASKS 24 BIPLANES; URGES BIG AERO CLUB OF HAWAII

(Continued from page one)

has in every way possible helped the cause of aviation in the army and national guard since flying first ceased to be a dream of fanatics and became a factor in military affairs that can no longer be ignored nor neglected.

Very few people realize the great work that is being done by the Aero Club of America and its affiliated societies in the various states for the cause of aviation and its bearing on the preparedness question.

In its work it has followed closely the methods of the Aero Club of France and the Aerial League of Germany, which two institutions, far more than either government, are responsible for the high state of efficiency and large number of machines and aviators who have been trained for use in the great war.

In February, 1912, soon after the employment of aeroplanes in the French military maneuvers demonstrated the potential value of air service the French government having failed to provide the necessary appropriations for organizing an adequate aeronautical organization for the French army, a public subscription was started.

In every part of France the subscriptions poured in—the rich manufacturers of the cities and the poorer farmers and laborers all doing their part to give to France a large and efficient aerial fleet. The sum obtained from these subscriptions reached a total of over 6,000,000 francs and gave to France 208 aeroplanes, 62 landing and training stations, and 75 trained pilots. The public interest created by the subscription was tremendous, and awakened the government to a consideration of the possibilities of aerial service, and France's aeronautical needs, so that by April, 1914, four months before the war began, the French army possessed 1200 aeroplanes and 28 dirigible balloons, most complete and efficient equipment.

A similar subscription began in Germany in 1913, brought 7,234,000

marks, and enabled Germany to train 230 pilots before the end of that year, and 600 before the end of 1913. The number of manufacturers of aeroplanes increased from 20 in 1912 to 50 in 1913. The interest aroused caused the German Reichstag to pass a bill providing for an expenditure of 35 million dollars for military aeronautics in five years.

The efforts of the Aero Club of America have been to raise subscriptions from all over America for the development of aeronautics in the army, navy and National Guard, and to conduct a publicity campaign that would show to the people and especially to Congress the need existing for a better aviation corps in our army and navy. Greater results than those in France and Germany are hoped for and the events so far promise well for their accomplishment.

It is only 14 months since the National Aeroplane Fund was started by the Aero Club of America, and in that time it has secured more than \$2,000,000, which has been used to provide aeroplanes for the National Guard of the 22 states that have organized aviation corps. They are also paying the expenses of National Guard officers at various schools of aviation and many other items for the improvement of the cause of aviation in America.

Recently it has been proposed to hold an aerial Derby under the auspices of the Aero Club of America, with \$100,000 in prizes for the contestants. This is to be a cross-the-continent race from New York to either San Diego or San Francisco. Many aviators have already signified their willingness to enter and it is certain to awaken a great interest among the manufacturers of aeroplane motors and aeroplanes, as well as among the military and civilian pilots.

Hawaii has always been among the first to take up any new sport and it is certain that the Aero Club of Hawaii, which combines the features of a patriotic society and a club for the furtherance of this kind of sports, will meet with hearty support.

LITTLE MATTER \$8000 ESCAPES WRITER'S NOTICE

(Continued from page one)

and that he was drawing upon the account.

Jackson, Miss. \$1000; Laurel, Neb. \$2000; Jacksonville, Fla. \$900.62; Newport News, Va. \$8000; Washington, D. C. \$1000; Albany, N. Y. \$3500; Albany, N. Y. \$1000; Suffolk, Va. \$5500; Tulsa, Okla. \$3000.

This amount of these purported checks totaled \$26,960.62, but the accompanying letter only mentioned an amount of \$13,960.62, the trivial amount of \$8000 having been apparently overlooked.

All checks sent for deposit, regardless of the fact that they came from widely different parts of the United States, were stamped with the same rubber stamp "Pay to the order of Pacific Bank Ltd., Honolulu, T. H." Some of the checks bore the mark of another rubber stamp, "Payment guaranteed by Merchants' Trust & Loan Co." This stamp, however, failed to indicate where such institution had its business office. And still further, the date of each check was stamped upon the face "June 30, 1916," despite the fact that they purported to issue from as many and such widely separated cities.

Not all of the checks were signed by the same name. One for \$960.62 (Jacksonville) purported to be signed by M. P. Dickinson; two from Suffolk purported to be signed by Dure Plumb, one being for \$8000 and one for \$3500; one from Washington bore the name of D. W. Andrews and was not indorsed.

Two letters of recommendation, one from a New York and another from a Georgia address, were also sent to the bank here. These were evidently written both by the same person, for they contained the same grammatical errors and were both mailed from the same place, presumably the sender being on a train.

Such investigations as may be conducted will necessarily be on the mainland.

"LINK" WANTS FENCE SO BOUNDARY LINES WILL NOT MOVE ROUND

With the possibility of renewing a neighborhood dispute which on one or two occasions in the past, got as high as the supreme court, Lincoln L. McCandless has applied to the fence commissioners of Honolulu to erect a division fence between his premises on Liliha street and adjoining the premises of Carl Du Roi.

"Link" McCandless discussed the fence matter quite freely today. He admitted that he has been having a dispute with his neighbors over a Torrens title. He says that the supreme court twice has settled the question of where the boundary line is, and that, in another decision, the line was changed.

"So I want to put up a fence," he adds, "so that we can be good friends—with a fence between us. I want to fix it so the boundary line will not move."

JAPANESE LOSES LIFE, DRAWN INTO MILL MACHINERY

(Special Star-Bulletin Correspondence)
HILLO, August 4.—Enoki Itaru, a Japanese, met with a terrible death in the fire room of the Honokaa Mill on the evening of July 25. The man was drawn into a belt and his jaw, head and neck were broken to pulp. The man must have died instantly and his shattered corpse then dropped on to a big heap of baggage that stood on the floor of the fire room.

It appears that the man, who was employed as a fireman, noticed that a belt that drives a baggage conveyor had slipped off. The man must have climbed on top of the big pile of baggage in order to fix the belt and was drawn into the revolving shaft. Itaru was wearing a flour sack around his neck for use as a towel to wipe the moisture from his face during his watch on the fire work. The sack must have been caught up by the shaft of the conveyor and then the man's head followed instantly.

GERMAN FLYERS AGAIN BOMBARD ARETSBURG BASE

The following official German cablegram was received today:

"The German admiralty announces that German hydroplanes on the morning of August 2-3 again attacked the Russian aero station at Aretsburg. They secured several hits on establishments and Russian military works. Several Russian battleplanes succeeded without any success in their efforts to shoot down the German flyers, which returned to their base unharmed."

Charged in two indictments with having criminally assaulted young girls under 15 years of age, Surenatsu Arita today pleaded not guilty in Circuit Judge Ashford's court. The cases were placed on the calendar to be set for trial. Arita is in Oahu prison.

The first and final accounts of the executors of the estate of the late Jacintho d'Oliveira have been filed in circuit court. The executors charge themselves with \$11,890.89 and ask to be allowed \$455.56.

Masato Oehizaki and Caesar Fernandez were discharged from bankruptcy in federal court today.

MR. AND MRS. E. W. SUTTON have moved to Kalaia to remain throughout August, occupying the F. D. Lowrey cottage.

MARQUIS OKUMA WILL NOT QUIT OFFICE IN 1916

Japanese Premier Announces He Will Remain in Position Until Next Year

(Special Cable to Nippon Jiji).
TOKIO, Japan, August 5.—The political crisis in Japan is over. Marquis Okuma will not resign as premier this year. It was announced this morning that Count M. Terauchi and Viscount T. Kato could not reach a compromise, and as a result Okuma made a public announcement that his resignation would not be handed in this year.

Emperor Yoshihito has already left Tokio for Nikko, his summer home, and Marquis M. Matsukata, who was recalled by the emperor to Tokio to discuss the political situation, has left for his summer villa at Nasuno. Prince A. Yamagata and Prince I. Oyama, two of the other elder statesmen will leave Tokio tomorrow.

The next session of the Japanese diet will be held in December, at which time it is expected that the members of the Seiyukai party will ask for a change in the government policy. At the present time Okuma is extremely popular, owing to his efforts in securing a Russian-Japanese treaty.

FILIPINO DIES IN 30-FOOT FALL

(Special Star-Bulletin Correspondence)
HILLO, August 4.—There was a fearful accident out at Paauhau on the evening of July 22 when Rafael Morales, a Filipino, was instantly killed when he fell from a height of thirty feet or so and struck his forehead on a projecting point of rock. The skin from the unfortunate man's forehead was cut off in a flap and laid down over his eyes while a hole was punched through into his brain.

The affair happened when Morales was returning from a fishing expedition and just when all danger was thought to be over. He and a couple of pals had climbed down a cliff two hundred feet high in order to reach the rocks at the water's edge and there do some fishing. The men fished for several hours and then started to return to the plantation by way of another trail. Morales was about thirty feet up the trail when he slipped and fell backwards. His back hit a rock and then he bounced forward and hit the protruding rock that killed him.

MAUI NEWS

(Special Star-Bulletin Correspondence)
WAILUKU, Maui, Aug. 4.—Joseph Oliveira, one of the oldest and best known Portuguese residents of Maui, died at the Malulu hospital last Monday night following a stroke of paralysis which occurred last Friday morning. The deceased was about 55 years of age and is survived by a wife and eight children. The funeral was held at 3 o'clock on Tuesday afternoon, interment being in the Wailuku Catholic cemetery. It was largely attended. Mr. Oliveira came to Hawaii 25 years ago and had lived practically all of that time on Maui. His illness and death came as a shock to his family as he had been previously in good health. Besides the widow, the following children are left: Joseph, Libby and Enos of Maui, John and Frank, residents of Oakland, and Antonio, Rosalie and Manuel of Honolulu.

Antone Oliveira, who is employed on the mechanical force of the Honolulu Star-Bulletin, and his sister, Miss Rosalie Oliveira, also a resident of Honolulu, were in Wailuku this week, being called here by the sudden death of their father, Joseph Oliveira, which occurred on Monday.

Albert Peters, an employee of the Maui Agricultural Company, was fined \$25 by Judge McKay this morning on conviction of having stolen a lot of tools and other supplies from the Pae warehouse where he had been employed. The fine was paid by relatives. Peters, who recently came to Maui from Honolulu, is a young part-Hawaiian of rather prepossessing appearance. In pleading for a light sentence for his client, Attorney Crockett told the court that the boy had been married less than a week before to a young Pae girl.

When Mary Dolores Ah-Uga, an 18-year-old Spanish divorcee, who looks several years younger, applied on Tuesday evening to Marriage License Clerk Crockett for a license to wed again, her request was denied because she had neglected to bring with her her decree of divorce from her Korean husband. She and the Filipino who sought the new permit left, apparently much disappointed but promising to return with the divorce decree the following day. And Mary did return. She had changed her mind overnight, however, for this time she was accompanied by a different Filipino, and it was him she finally married. The girl was divorced about 10 days ago on grounds of non-support, the decree becoming effective on August 1. She has two children.

Because he has been one of the leaders among the business-getters of the Western Reserve Life Insurance Company, C. D. Lufkin will leave

PREMIER SLATED TO BE CHINA'S VICE PRESIDENT

Right Hand Man of Yuan Shih-Kai Has Big Lead in Fight for Office

(Special Cable to Nippon Jiji).
TOKIO, Japan, Aug. 5.—Tuan Ch'i Jui, premier of China, is slated to be the next vice-president of the Chinese republic, according to advices received from Peking today. He was formerly the right-hand man of Yuan Shih-Kai, and is known as one of the leading diplomats of China.

Tuan at once time forced the election of Yuan Shih-Kai. When Yuan was elected to the presidency, Tuan, then chief of general staff, sent his soldiers to surround the hall where the delegates were gathered and would not allow one of them to leave until he was assured that Yuan Shih-Kai was elected to the presidency.

This mailed fist policy has been bitterly opposed by many of his enemies, but notwithstanding this fact, the Chinese throughout the republic believe that Tuan will fill the position with honor. The southern provinces are not offering opposition to his candidacy.

SERVICE FIRST OR REACH FIRST SETTLED SUNDAY

Service First or Service Second? That is the question that is being asked by the members of the Reach baseball team who will clash with the Honolulu Construction & Draying Company team at Athletic park on Sunday morning at 9:30 for the championship.

There has been a rivalry between these teams, and the battle will be fought out on the field in the morn. Harry Fu will be on the mound for the Draymen, while John Hollinger will leave for the Reaches. There will be war in the family all right, as his brother Ben is pulling for the Service First. Dixon will wear the mask for the Trunk destroyers while Joseph will be behind the plate for the Stretchers.

BEAR'S CAPTAIN IS BLAMED FOR WRECK ON COAST

(Associated Press by Cable)
SAN FRANCISCO, Cal., Aug. 5.—As a result of the wreck of the San Francisco & Portland Steamship Company's steamer Bear last June, Capt. Nopander of the vessel has been condemned to lose his license. Third Officer O. Lund, who was in charge of the soundings on the night of June 14, when the Bear went ashore 15 miles out of Eureka, loses his license for six months, being held partly to blame for not discovering that the steamer was off her course. A number of lives were lost in the wreck.

Motions will be made in Circuit Judge Ashford's court at 9 o'clock next Tuesday morning to set for trial the following cases: Lydia K. Mahoe et al vs. Oahu Sugar Company, action for ejectment; Helen K. Kinney vs. J. L. P. Robinson et al, action to quiet title; trustees of the Bishop Estate vs. Wailua Agricultural Company, action for ejectment.

Demurrer has been filed by the defendants in the case of K. E. Murphy against H. Kuak and J. F. C. Abel, an action to quiet title.

for the coast on the 15th inst. as a guest of the company; to attend the big annual conference of insurance men in southern California. It is the first time that an insurance man in the islands, outside of Honolulu, has ever won such a trip. Mr. Lufkin will be accompanied by his wife, and will spend about two months on the mainland. Mrs. Lufkin will be away for perhaps a month longer visiting friends in the eastern states.
